Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 9 are drawn to generating database via an interface, classified in class 707, subclass 102.
 - II. Claims 10 –13, 17, 20 are drawn to database maintenance and updating, classified in class 707, subclass 203.
 - III. Claims 14 – 19 are, drawn to query processing and searching, classified in class 707, subclass 3.

The inventions are distinct, each from the other because of the following reasons:

Inventions in group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in group I has separate utility such as generating database. The invention in group II has separate utility such database maintenance and updating. See MPEP § 806.05(d).

Inventions in group I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in group III has separate utility such as query processing and searching. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

During a telephone conversation with Matthew E. Connors on 01/17/2006 a written election restriction was requested.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Remarks

3. It is brought to the applicants notice that response period to this office action is 1 month.
